

FAIR EMPLOYMENT PRACTICES COMMISSION - 1944

Whereas, the people of the world and of our own beloved country are fighting a global war to preserve democratic institutions, and the civil rights of all men and women; and

Whereas, the Board of the National Federation of Temple Sisterhoods believes in social justice, that every man and woman should have the right of earning a living without being hampered by race, creed or color,

Be it resolved, that the Fair Employment Practices Commission be continued and made permanent governmental procedure, and that we work with other organizations to that end.
