

WOMEN ^{OF} REFORM JUDAISM

WRJ says STOP Materials and Resources

Various resources are available to help us shape and preserve safer environments in our congregations and communities. Many of these resources are geared toward the employment environment, but they are readily adapted for all members of the congregational community - members, visitors, clergy, professionals, and staff. Together, we strive to build and maintain congregations and communities in which **every** person in our congregations is safe, valued, heard, and treated with integrity and respect. These resources will help.
