

## RECOMMENDATION FOR PERMANENT PEACE - 1923

---

Whereas, the spirit and teaching of Judaism supports the principle of peace among men, and

Whereas, the welfare of our own country as well as of all countries of the world will best be benefited when men are at peace with one another, and

Whereas, we aim for and desire such legislation as will promote the greatest moral and physical welfare of the citizens of our beloved country, as well as of all the nations of the earth,

Be it therefore resolved, that the National Federation of Temple Sisterhoods stands for earnest endeavor to find and promote some way of establishing permanent peace among the nations.
